## **BOCCONI UNIVERSITY**

Bocconi University was established as a private, independent, non-profit university in Milan in 1902 thanks to the generous endowment from Ferdinando Bocconi, a wealthy merchant. Named after his lost son, Università Commerciale Luigi Bocconi thus became the first Italian institution to grant higher degrees in economics and management, . and has played an important role in Italy's social and economic modernization.

Today Bocconi is considered one of the leading European universities in economics, management, business administration, finance, social and political sciences data science and law, offering undergraduate and graduate programs and Ph Ds, as well as MBAs through its business school, SDA Bocconi School of Management.

Bocconi University appears in the most prominent rankings which cover its areas of expertise, steadily positioned among top European institutions.

The University has a growing reputation as a global research institution in the social sciences, with a worldclass faculty and a diverse student population.
